

# WAYSIDE TREES IN CITY OF COLOMBO

University of Moratuwa, Sri Lanka.

Electronic Theses & Dissertations

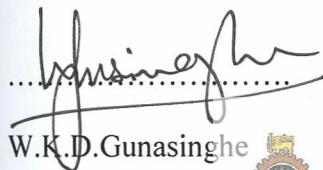

[www.lib.mrt.ac.lk](http://www.lib.mrt.ac.lk)

**The Dissertation is submitted to the Department of  
Architecture, University of Moratuwa in fulfillment of the  
requirement for the Degree of Master of Science in Landscape  
Design.**

**W.K.D. Gunasinghe**  
**Faculty of Architecture**  
**University of Moratuwa**  
**Sri Lanka**  
**November 2009**

## DECLARATION

I here by declare that this submission is my own work and that, to the best of my knowledge and belief, it contains no materials previously published or written by another person or materials which, to a substantial extend has been accepted for the award of any other degree or diploma of a University or other institute of higher learning, except where the knowledge is made in the text.

W.K.D.Gunasinghe

List of Figures.....	iv

## TABLE OF CONTENTS

### CHAPTER 1 : HISTORICAL BACKGROUND IN WAYSIDE TREES AND GREEN

CITY .....	01
1.1. Introduction.....	01
1.2. History of wayside trees landscaping and green city.....	04
1.3. Ancient Sri Lanka wayside trees landscaping and attitudes .....	07
1.4. History of green space with wayside trees in Sri Lanka.....	08
1.4.1 Anuradhapura and Polonnaruwa kingdom.....	08
1.4.2 Sigiriya kingdom.....	11
1.5. Urban wayside tree landscaping the latter kingdoms of Sri Lanka.....	14
1.5.1 Sri Jayawardanapura Kotte .....	14
1.5.2. Kandy.....	15
Reference.....	16

### CHAPTER 02: THE EVALUATION AND HISTORY OF WAYSIDE TREES IN THE CITY OF COLOMBO .....

2.1. The City of Colombo.....	19
2.2. Historical Background of the City Of Colombo.....	24
2.2.1. The Portuguese Period.....	24
2.2.2 The Dutch Period.....	25

2.2.3	The British Period.....	25
2.3.	Urban Lands Use Pattern and the Role of Street trees.....	28
2.3.1.	Existing Wayside Tree Areas and Extend Green Areas In City Of Colombo.....	30
2.4.	Evaluation of Colombo Wayside Tree Plantation /Landscaping.....	32
2.4.1.	Abercrombie Plan .....	33
2.4.2.	Colombo Master Plan Projects.....	33
2.4.3.	Public Outdoor Recreation Spaces (PORS) Plan For Colombo.....	33
2.4.4.	Colombo Metropolitan Regional Structure Plan (CMRSP).....	34
	Reference.....	35

CHAPTER 3: THE WAYSIDE TREE LANDSCAPING.....37

3.1.	Management of Way Side Trees.....	37
3.2..	Involvement of Government Authorities and Institutes on Wayside Tree Landscaping and Green Area.....	46
3.3.	Problems of Wayside Trees.....	50
3.3.1.	Human Interventions.....	53
3.3.2.	Natural Causes.....	54
3.3.3.	Problems Evolve In Related Area (Paved and Road Area).....	56
	Reference.....	58

CHAPTER 4: ISSUES RELATED TO WAYSIDE

	TREES IN CITY OF COLOMBO.....	60
4.1.	Issues.....	60
4.1.1	Population Increase.....	60
4.1.2.	Encroachment.....	62
4.1.3	Urbanization.....	63
4.1.4.	Industrialization.....	64

4.1.5. Barriers and obstruction.....	66
4.2. Sustainability of Biodiversity.....	66
4.3. Increase Vulnerability to Urban Natural Disaster.....	69
4.3.1. Surface hazards from leaf and branch litter and other nuisance.....	69
4.3.2. Industrial and Vehicular Emissions (CO <sub>2</sub> ) .....	71
4.3.3 Urban Microclimatic Effects.....	73
References.....	73

CHAPTER 05: MAIN IMPORTANCE WAYSIDE TREE LANDSCAPING AREAS IN  
COLOMBO CITY.....76

5.1. Trees and parking .....	97
Reference.....	100

CHAPTER 06:  TOWARDS THE HIGH BIODIVERSITY, CLEAN  
ENVIRONMENT AND GREEN BELT THROUGH THE  
WAYSIDE TREE LANDSCAPE DESIGN.....101

6.1. Benefits of Urban Wayside Tree Landscape.....	101
6.1.1. Principle Conservation Values of Wayside Trees.....	103
6.1.2. Ecological and Environmental Benefits.....	109
1. Air Pollution Abatement.....	110
2. Erosion Control and Watershed Protection.....	111
3. Noise Abatement.....	111
4. Precipitation and Humidity.....	112
5. Glare and Reflection Control .....	114
6.1.3. Engineering Uses of Urban Forest .....	114
6.1.4. Esthetic Uses of Road Side Tree as Urban Forest.....	114
6.1.5. Architectural Uses.....	115

6.1.6. Traffic Control.....	115
6.1.7. Other Uses of Road Side Trees.....	116
6.2. Future Directions through Contribution of Wayside Trees as a Landscaping.....	118
6.2.1. Strengthening Landscape Policy.....	119
6.3. Progress of Colombo.....	119
6.3.1. Tree Species of Wayside Trees In City Of Colombo.....	123
6.4 Concluding Discussion.....	124
References.....	126
Bibliography.....	128

## ABSTRACT

In the present study, a review was carried out on the wayside tree Colombo city. In addition, a structural interview was carried out with the relaxants authorities including government and non governmental institutions.

First chapter of the dissertation introduce the brief history of the wayside trees in Sri Lanka emphasizing different historical periods ruled by native and foreign rulers. The review indicated that there was a trend of integration of wayside trees in to a number of developments scheme.

The second chapter and evaluation of way side trees of Colombo City was also made and there was drastic change in the planting of wayside trees with the introduction of modern construction in the city. Most of the wayside trees in the Colombo city have been evidence that the colonial rulers have paid an attention to preserve the wayside trees. In addition, there were roadside tree plantation plan during the time of foreign ruling and after the independence.

The chapter tree briefly dealt with the wayside tree landscaping special reference to management of wayside trees. The review indicates that there is no appreciable level of the management of wayside trees attempted by local government, authorities in Colombo city. This may be due to the lack of finance, labours force, expertise and inefficient communication between the relevant authorities.

Chapter four in the dissertation focuses the issues related to the wayside trees in the Colombo city. There are number of contributive factors in these issues, namely population increase, illegal encroachment, urbanization, and industrialization let to minimize the biodiversity in the city area. The earth slip, water logging, root damaging and water stress can be let to death of road tress and increase the risk of natural disasters. The beneficial effect of the wayside tree plantation let to minimize the industrial and vehicular CO<sub>2</sub> emissions and create the microclimatic effect in Colombo city.

The chapter five discusses the main importance of the wayside trees in Colombo city. In this chapter, a comparison of different forms of roadside tree plantation in the Colombo city with the similar forms found in else ware.

The sixth chapter of the dissertation briefly discusses the major uses of the wayside trees in general and points out the importance of strengthening landscape policy. A progress of wayside tree plantation of Colombo city also discusses and it was reveal that there was an increasing trend in tree plantation within the city. The study suggests that wayside tree plantation should be carried out with proper national plan under the supervision of government organizations with the support of the NGOs. In addition it should be worthy to seek advisors from landscape expertise and botanists in planning the plantation of wayside trees in Colombo city and elsewhere in the country.

## ACKNOWLEDGEMENTS

I am deeply indebted to my supervisor Archt. Ms. Shiranee Balasooriya Senior Lecture, Department of Architecture, for her guidance, valuable suggestions comments and indispensable help extended throughout the project and to Landscape Archt. Mr. Susira Udalamaththa, Lecturer and Year Coordinator of the 1<sup>st</sup> year M. Sc., Department of Architecture, for his comments, criticism and continuous monitoring which encourage me to complete the study. My sincere thanks are also due to Archt. Dr. Harsha Munasinghe, Head, and Department of Architecture for his assistance and valuable information given during the preparation of the dissertation.

Though living very faraway, yet very close to me, Dr. John Byrom for guiding me throughout the writing of dissertation, providing of necessary framework to apply and taking pain for checking the document thoroughly for the required standard. Archt. Mrs. Shereen Amendra, Lecture, for her valuable comments and help given during writing the dissertation in Postgraduate First Year. I would like to extend my sincere thank to Dr. S. Somaratne, Department of Botany, the Open University of Sri Lanka, Nawala, Nugegoda for encouraging me from the beginning of the research project and for his suggestions and valuable criticism on the manuscript. Dr. S. Ranwala, Department of Botany, University of Colombo, is highly acknowledged for her guidance and provision of necessary information to make this dissertation a complete one.

The Librarian and the Library Staff, the University of Moratuwa and the staff of the reading room of the Department of the Architecture for assisting me to trace necessary reference materials and Miss. Malkanthi, and Mr. Champika Ariyawansa for their help in capturing Colombo city in photographs.
