1. Method for determination of Aggregate Impact Value (AIV), British Standard BS 812 – 112, 1990
2. *Method for determination of Aggregate Crushing Value (ACV)*, British Standard BS 812– 111, 1990
3. Method for determination of Ten percent Fines Value (TFV), British Standard BS 812 – 110, 1990
4. Standard test method for Resistance to Degradation of small-size coarse aggregate by abrasion and impact in the Los Angeles method. ASTM standards C 131 – 96, 1996
5. Standard test method for Resistance to Degradation of large-size aggregate by abrasion and impact in the Los Angeles Machine. ASTM standards C 536 – 96, 1996
6. Esen, S. and Bilgin, H.A., (2008). Effect of explosive on fragmentation. Department of Mining Engineering, Middle East Technical University, Ankara, Turkey.
7. Kilic, A.M., Yasar, E., Erdogan Y. and Ranjith, P.G., 2009. Scientific Research and Essay. 4 (11), pp. 1213 – 1224. ISSN 1992-2248 2009 Academic Journals.
8. Kondelchuk, D. and Novikon, E., 2005. Study of the mechanical properties of the granitoid rocks and the influence of blasting parameters on the quality of aggregates, MS thesis, Department of Civil and Environmental Engineering, Lulea University of Technology, Sweden.
