#### Water Management Committee (CBO) officers

Questionnaire for assessment of critical factors for effective management of rural water Schemes in Sri Lanka.

Water Scheme Success is defined as, the water scheme is functioning to deliver its intended benefits over the long-term and fulfill 24-hour water demand of all beneficiaries throughout the design life of the water supply system.

If the water scheme gives an acceptable level of service, which marginally satisfies the water demand of beneficiaries the water scheme is "partially successful".

If the scheme does not deliver its' intended benefits over the design life, the scheme is "Not successful".

- 1. According to your context, is your Water Supply System successful?
  - a) Yes
  - b) No
  - c) Partially successful
  - d) Don't know

#### Section 1: Awareness of success factors

Several essential factors exist to successfully manage rural water schemes. This section asks questions about the awareness of the critical factors for rural water schemes success.

Were you aware that following factors were critical to success of your scheme?

Key Factors	Aware	Not aware
Skills and abilities of water committees		
Economic Factors and support Infrastructure		
Personnel Characteristics of CBO members		
Training and Capacity building		
Motivation		
Coordination and back-up support		
Monitoring and evaluation		
Power and commitments of CBOs.		
Leadership characteristics.		
Fransparency, accountability and responsibility.		
Communication skills of implementing agency staff.		
Community wealth and awareness.		
Community participation.		
Community Profile.		
External factors and the environment (quality & quantity of		
source, resources, political issues, legal issues, rules & regulations		
etc.)		

#### **Section 2: Impact of critical factors.**

This section asks questions about the Impact of the critical factors on your scheme success. For each statement please mark "X" for the best option that reflect your level of agreement.

Part 1: This section asks questions regarding "Skills and Abilities of CBO"

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
1.0	Skills and abilities of CBO	officers					
1.1	We have technical skills	operation and maintenance,					
	on;	repair					
		adequate monitoring					
1.2	We have administrative skills on,	collect revenue				-	
		run bank accounts					
į.		record keeping					
		make payments for					
		services/parts/salaries etc.					
1.3	Have Governance skills						
	on;	planningy of Moratuwa	, Sri	Lar	ıka.		
	({ <b>(*)</b> }) E1	deadership Theses & Dis	serta	tio	1S		
	and the second	Informed decision making.					
1.4	Have <b>conflict resolution al</b> resolve conflicts within com	<b>bility</b> to build consensus and munity and leaders.					

Part 2: This section asks questions regarding "Economic Factors and Support Infrastructure"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
2.0	Economic Factors and Support Infrastructure					
2.1	Have ability to cover recurring cost of operation & maintenance expenses, salaries etc.(revenue flow)					
2.2	Have well established tariff structure based on consumption.					
2.3	Wealth of community is acceptable to ensure sufficient household income to pay continuously.					
2.4	Communities are willing to pay for the service.					
2.5	Already there is a well raising necessary financing established mechanism for, .  Alternatives.  manages funds					

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
		Collect tariff.					
2.6		Have well established institutional structure, well equipped o deal with management and technical issues.					
27	Have support infrastructure	office accommodation,					
	such as;	transport					
		communications,					
		electricity					
		copying facilities					
		Computers.					

Part 3: This section asks questions regarding "Personal Characteristics of committee members"

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
3.0	Personal Characteristic	s of committee members					
3.1	Have ability to;	work well in groups f Moratus	wa. S	ri L	ank	ta.	
		know each other properly Have developed friendship.	Disse	rtat	ions	3	
3.2	Have personal will to be						
3.3	Have ability to take response	nsibilities and take up challenges.					
3.4	Have a common interinterests.	rest and accommodate diverse					
3.5	Have willingness to take	leading role					
3.6	Have created good improutsiders.	ve created good impressions among beneficiaries an					
3.7	Have capacity to garner of the community.(existe	support from, within and outside nee of social networks)					

Part 4: This section asks questions regarding "CBO Leadership"

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
4.0	CBO Leadership.	30 Leadership.					
4.1	Have leadership	quiet					
	characteristics such as;	perspective					
		very analytical					
		confidence					
		provide right ending always					
4.2	Leadership does not con	trol options and views of other					

# Annex 01:

-		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
	members.					
4.3	During project cycle CBO leadership has not changed.					
4.4	During project cycle CBO members have not left the					
:	village.					

Part 5: This section asks questions regarding "**Training and Capacity building**" of CBO members.

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
5.0	Training and Capacity buildir	ıg					
5.1	Have received required	Technical skills					
:	training such as;	Management skills					
		Administration skills					
		financial skills					
5.2	Have enough capacity building project life cycle.	programmes throughout	, Sri serta	Lar	ika. ns		
5.3	Receive on-going training as an	d when required.					

# Part 6: This section asks questions regarding "Motivation" of CBO members.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
6.1	Community motivation programmes are implemented at the initial stage as well as during life cycle.					
6.2	Pay monthly salary to care taker.					
6.3	There is a rewarding system for good operation and maintenance.					

Part 7: This section asks questions regarding "Co-ordination and back-up support"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
7.0	Co-ordination and back-up support					
7.1	Good co-ordination exists among water providers, local authorities, CBO and communities.					
7.2	Have good social networks and exchange ideas with other CBOs and other villages.					
7.3	Have good working relationships with existing community structures of the village and receive their participation.					
7.4	Receive back-up support from relevant authorities (NWSDB, local authorities etc.) regularly.					
7.5	Have easy access to support (technical, managerial) and spare parts. (maintenance and repair)					

Part 8: This section asks questions regarding "Monitoring and Evaluation "

	I Luiz	rengity of Menetyry	Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
8.0	Monitoring and Evaluation	cisity of Moratuwa	, 511 1	Lan	Kd.		
8.1	and maintenance.						
8.2	Have easy and systematic monitor	ve easy and systematic monitoring system					
8.3	Meeting held regularly to discuss	s issues and take decisions.					
8.4	Have sufficient information to tariff, service level, develop ma or replace something.						
8.5	All activities have documented	meetings,					
	and have good record keeping system.	duties of each members					
		funds					
8.6	Scheme evaluation done periodi water providers.	cally and give feedback to					

Part 9: This section asks questions regarding "Wealth of community and awareness"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
9.0	Wealth of community and awareness					
9.1	Community can understand the concept of community management and develop attitude to support it.					
9.2	Community has knowledge to manage the system.					

# Annex 01:

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
9.3	Community has education to manage the system					
9.4	Community has capacity to manage the system.					
9.5	Household income of most of users is at an acceptable level to pay continuously for the service.					

Part 10: This section asks questions regarding "community participation"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
0.01	community participation					
10.1	They have feeling of ownership.					
10.2	Communities are fully involved in committee activities in the initial stage.					
10.3	Communities are fully involved in committee activities in the operational stage.	vo Sri	To	nko		
10.4	Communities are actively participating in meetings.	va, ou Dissert	ra atic	ns		

Part 11: This section asks questions regarding "Transparency and Responsibility CBO activities"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
11.0	Transparency and Responsibility					
11.1	There is a transparency in decision making process.		1			
11.2	There is a transparency in all financial activities.					
11.3	Tasks and responsibilities are clearly delegated among committee members.					
11.4	Analyze causes and consequences of problems in open & frank manner					

# Annex 01:

Part 12: This section asks questions regarding "power and commitments of committee"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
12.0	Power and commitments of committee			-		
12.1	No power conflicts among committee members					
12.2	Have legal arrangement to support issues					
12.3	CBO leadership and office bearers are benefitted from the scheme and their personal commitment is very high.					

Part 13: This section asks questions regarding "External Factors"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
13.0	External Factors					
13.1	There are clear rules, regulations and favorable policies supporting the rural water sector and to confirm each party meet their obligations.					
13.2	Political support influences the success or failure of the scheme.	Sri L	ank	a.		
13.3	The quality and quantity of source is adequate.    DISS	ertati	ons			
13.4	There is a mechanism for capacity building of policy makers.					
13.5	There are competent resource persons for capacity building of communities.					
13.6	There are mechanisms to exchange institutional and community based experiences.					
13.7	Mechanism for mediation in the case of conflicts in communities.					
13.8	Spare parts availability is acceptable.					
13.9	There are simple technological options.					

# Information about yourself (Community Profile)

Please tick the appropriate cage for the most relevant responses in respect of following items for you.

14. Gender:

a. Male	b. Female
ł	

15. Your age:

a. Under 20	b.20-40	c. 40-60	d. over 60

- 16. What is your occupation?
- 17. What is your role in the CBO?.
- 18. Number of years worked in the CBO.
- 19. What are the constraints to successful management of your scheme?
- 20. Other comments for success.....

Thank you very much for your cooperation.

#### Water Providers /Implementing agencies

Questionnaire for assessment of critical factors for effective management of rural water Supply Schemes in Sri Lanka.

Water Scheme Success is defined as, the water scheme is functioning to deliver its intended benefits over the long-term and fulfill 24-hour water demand of all beneficiaries throughout the design life of the water supply system.

If the water scheme gives an acceptable level of service, which marginally satisfies the water demand of beneficiaries the water scheme is "partially successful".

If the scheme does not deliver its' intended benefits over the design life, the scheme is "Not successful".

- 1. According to your context, are Rural Water Supply Schemes are successful?
  - a) Yes
  - b) No
  - c) Partially successful
  - d) Don't know

#### Section 1: Awareness of critical factors

Several essential factors exist to successfully manage rural water schemes. This section asks questions about the awareness of the critical factors for success in rural water supply schemes.

Were you aware that following factors were critical to success of rural water schemes?

Key Factors	Aware	Not aware
Skills and abilities of water committees		
Economic Factors and support Infrastructure		
Personnel Characteristics		
Training and Capacity building		
Motivation		
Coordination and back-up support		
Monitoring ,evaluation and record keeping		
Power and commitments of CBOs.		
Leadership characteristics CBOs.		
Transparency, accountability and responsibility.		
Communication skills of implementing agency staff.		
Community wealth and awareness.		
Community participation.		
Community Profile.		
External factors and the environment (quality & quantity of source, resources, political issues, legal issues, rules & regulations etc.)		

#### Impact of Critical factors.

This section asks questions about the Impact of the critical factors on successful rural water schemes. For each statement please mark "X" for the best option that reflect your level of agreement.

Part 1: This section asks questions regarding "skills and abilities of CBOs of successful schemes"

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
1.0	skills and abilities of CBOs						
1.1	They have technical skills	operation and maintenance,					
	on;	repair					
		adequate monitoring					
1.2	They have administrative	collect revenue

5.3	Conduct on-going training as an	d when required.					
5.4	The capacity building program skills and abilities exists within bring their own perspectives and	community and they have					

Part 6: This section asks questions regarding "Motivation" of communities in successful schemes.

6.0	University of Moratuwa, Electronic Theses & Dis www.lib.mrt.ac.lk	Strongly Disagree	Disagree	Nordea	Agree	Strongly Agree
6.1	Community motivation programmes are implemented at the initial stage as well as during life cycle.					
6.2	Community has mechanism to pay monthly salary (or allowance) to care taker.					
6.3	There is a rewarding system for good operation and maintenance.					

Part 7: This section asks questions regarding "Co-ordination and back-up support" of implementing agencies for successful schemes.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
7.0	Co-ordination and back-up support					
7.1	Good co-ordination exists among water providers, local					
	authorities, CBO and communities.					
7.2	CBO has good social networks and exchange ideas with					
	other CBOs and other villages.					
7.3	CBO has good working relationships with existing					
	community structures of the village and receive their					
	participation.					
7.4	Communities are given back-up support regularly.					

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
7.5	Communities have easy access to support (technical,					
	managerial) and spare parts. (maintenance and repair)					

Part 8: This section asks questions regarding "Monitoring and Evaluation" of implementing agencies.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
8.0	Monitoring and Evaluation	0. 1	-			
8.1	Plan for the use of monitoring information at the beginning.					
8.2	There is an effective post-project, regular monitoring mechanism.					
8.3	CBO always gives continuous feedback.					
8.4	Have sufficient information to support decisions of CBOs.					
8.5	Regular project status reports reviewed by District units					
8.6	Scheme evaluation done periodically by NWSDB.		<u> </u>			
8.7	Conditions for annual reporting requirement and on-site monitoring have set at the outset. Iversity of Moratuw	a, S	i L	ank	a.	

Part 9: This section asks questions regarding "Wealth and awareness of community" of successful schemes.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
9,0	Wealth and awareness of community					
9.1	Community can understand the concept of community management and develop attitude to support it.					
9,2	Community has knowledge to manage the system.					
9,3	Community has education to manage the system					
9.4	Community has capacity to manage the system.					
9.5	Household income of most of users is at an acceptable level for continuously paid for the service.					

Part 10: This section asks questions regarding "community participation" in activities of successful schemes.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
10.0	community participation					
10.1	They have feeling of ownership.					
10.2	Communities are fully involved in committee activities in the initial stage.					
10.3	Communities are fully involved in committee activities in the operational stage.					
10.4	Communities are actively participating in meetings.					

Part 11: This section asks questions regarding "Transparency and Responsibility" of CBO activities in successful schemes.

	University of Moratuwa,	Strongly Disagree	Disagree	So idea	Agree	Strongly Agree
11.0	Transparency, Accountability and Responsibility Diss	ertati	ons			
11.1	There is a transparency in decision making process.					
11.2	There is a transparency in all financial activities.					
11.3	Management tasks and responsibilities are clearly delegated among committee members.					
11.4	Analyze causes and consequences of problems in open & frank manner					

Part 12: This section asks questions regarding "power and commitments" of committee members/leaders in successful schemes.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
12.0	power and commitments					
12.1	No power conflicts among committee members					
12.2	Have legal arrangement to support issues					
12.3	There is a true leadership and not take uni-lateral decisions and irregular spending					
12.4	If CBO leadership and office bearers are benefitted from the scheme and their personal commitment is very high.					

# LIBRARY UNIVERSITY OF MODATUWA, \$811,689.5 ERORA TURAS

Part 13: This section asks questions regarding "Communication skills" of implementing agencies.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
13.0	Communication skills					
13.1	Maintain high level of communication links between implementing agencies, CBOs and beneficiaries.					
13.2	Project requirement and policies communicated properly to beneficiaries.					
13.3	Communicated all necessary information and give clear understanding of tasks required.					

Part 14: This section asks questions regarding "External Factors"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
14.0	External Factors University of Moratuwa,	Sri L	anl	ta.		
14.1	There should be clear rules, regulations and favorable policies supporting the rural water sector and legal national policy guiding the interventions.	ertat	ions	5		
14.2	Political support influences the success or failure of the scheme.					
14.3	The quality and quantity of source is adequate.					
14.4	There should be an Institutional formalized mechanism for continuous support.					
14.5	There should be a mechanism for capacity building of policy makers.					
14.6	There should be competent resource persons for capacities building of communities.					
14.7	There should be mechanisms to exchange institutional and community based experiences.					
14.8	Spare parts availability is acceptable.					
14.9	There should be simple technological options.

Annex 02:
17. Give your comments on what should be done for Community managed rural water
supply success

# Thank you very much for your cooperation

#### Water Users /Beneficiaries. (Conducted in Local Language)

Questionnaire for assessment of success factors for effective management of rural water Supply Schemes in Sri Lanka.

Water Scheme Success is defined as, the water scheme is functioning to deliver its intended benefits over the long-term and fulfill 24-hour water demand of all beneficiaries throughout the design life of the water supply system.

If the water scheme gives an acceptable level of service, which marginally satisfies the water demand of beneficiaries the water scheme is "partially successful".

If the scheme does not deliver its' intended benefits over the design life, the scheme is "Not successful".

- 1. According to your context, is your Water Supply System is successful?
  - a) Yes
  - b) No
  - c) Partially successful
  - d) Don't know

#### Section 1: Awareness of success factors

Several essential factors exist to successfully manage rural water schemes. This section asks questions about the awareness of the critical factors for success of your scheme. Were you aware that following factors were critical to success of your scheme?

Key Factors	Aware	Not aware
Skills and abilities of water committees		
Economic Factors and support Infrastructure		
Personnel Characteristics		
Training and Capacity building		
motivation		
Coordination and back-up support		
Monitoring ,evaluation and record keeping		
Power and commitments of CBOs.		
Leadership characteristics.		
Transparency, accountability and responsibility.		
Communication skills.		
Community wealth and awareness.		
Community participation.		
Community Profile.		
External factors and the environment (quality & quantity of source, resources, political issues, legal issues, rules & regulations etc.)		

#### Section 2. Impact of critical factors.

This section asks questions about the Impact of the critical factors on you scheme success. For each statement please mark "X" for the best option that reflect your level of agreement.

Part 1: This section asks questions regarding "skills and abilities of CBO" in your scheme

SCHE							
			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
1.0	skills and abilities of CBO						
1.1	They have technical skills	operation and maintenance,					
	on;	repair					
		adequate monitoring					
1.2	They have administrative	collect revenue					
	skills on,	run bank accounts					
		record keeping					
		make payments for					
		services/parts/salaries etc.					
1.3	Have Governance skills	problem solving					
	on;	planning	Cri	I o	nko		
		leadership	, 011	La	LUXCI	•	
	El	Informed decision making.	ssert	atio	ns		
1.4	Have <b>conflict</b> resolution at resolve conflicts within comm	<b>pility</b> to build consensus and munity and leaders.					

Part 2: This section asks questions regarding "Economic Factors and Support Infrastructure" of your scheme.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
2.0	Economic Factors and Support Infrastructure					
2.1	We have ability to pay for the service.					
2.2	Have well established tariff structure based on consumption.					
2.3	Wealth of community is acceptable to ensure sufficient household income to pay continuously.					
2.4	We are willing to pay for the service.					
2.5	Already there is a well raising necessary established mechanism for, financing  Alternatives.					
	manages funds					

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
		Collect tariff.					
2.8	Have support infrastructure	office accommodation,					
	such as;	transport					
		communications,					
		electricity					
		copying facilities					
		Computers.					

Part 3: This section asks questions regarding "Personal Characteristics of CBO members"

regis agencine co un			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
3.1	Personal Character	istics CBO members	) . <u> </u>				J
3.1	Have ability to;						
		know each other properly					
		Have developed friendship.					
3.2	We have personal wi	ll to be trained? ISITY Of Moratuv	va, S	rı L	ank	a.	
3.3	up challenges.	bility to take responsibilities and take	Pisse	rtat	ions		
3.4	Our committee has a diverse interests.	common interest and accommodates					
3.5	We accept our comm	unity leadership.					
3.6	Our water committed among us (users).	tee has created good impressions					

Part 4: This section asks questions regarding "CBO Leadership"

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
4.0	CBO Leadership						
4.1	CBO officers have	quiet					
	leadership	perspective					
	characteristics such as;	very analytical					
		confidence					
		provide right ending always					
4.2	Leadership does not con-	trol options and views of other					
	members and community.						
4.3	During project cycle CBC	leadership has not changed.					
4.4	During project cycle CE	30 members have not left the					
	village.						

Part 5: This section asks questions regarding "Training and Capacity building" of community.

5.0	Training and Capacity building	Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
5.1	Participated in capacity building and training programmes at the initial stage of the project.					
5.2	Participated in capacity building and training programmes during operational stage of the project.					
5.3	Receive on-going training as and when required.					

Part 6: This section asks questions regarding "Motivation" of community.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
6.0	Motivation					
6.1	Community motivation programmes are implemented at the initial stage as well as during life cycle.	ri L <i>a</i>	inks			
6.2	We are interested to participate in scheme activities.	rtatio	ns			
6.3	There is a rewarding system for good operation and maintenance and participation of system activities.					

Part 7: This section asks questions regarding "Co-ordination and back-up support"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
7.0	Co-ordination and back-up support					
7.1	Good co-ordination exists among water providers (NWSDB), local authorities, CBO and communities.					
7.2	CBO has good social networks and exchange ideas with other CBOs and other villages.					
7.3	Have good working relationships with existing community structures of the village and receive their participation.					
7.4	Have easy access to support (technical, managerial) and spare parts. (maintenance and repair)					

Part 8: This section asks questions regarding "Monitoring and Evaluation" of CBO of your scheme.

			Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
8.0	Monitoring and Evaluation						
8.1	CBO has kept seasonal calendar to determine when to collect funds and maintenance.						
8.2	Meeting held regularly to discus-	s issues and take decisions.					
8.3	All activities have documented and have good record keeping system.	meetings,					
8.4	Scheme evaluation done period water providers.						

Part 9: This section asks questions regarding "Wealth of community and awareness"

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
9.0	Wealth of community and awareness					
9.1	We can understand the concept of community management and develop attitude to support it. These sections are supported by the concept of community management and develop attitude to support it.	Sri L ertati	ank	ia.		
9.2	We have knowledge to manage the system.					
9.3	We have education to manage the system					
9.4	We have capacity to manage the system.					
9.5	Household income of most of us is at an acceptable level and we can continuously pay for the service.					

Part 10: This section asks questions regarding "community participation" in scheme activities.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
10.0	Community participation					
10.1	We have feeling of ownership.					
10.2	Household income of us are at an acceptable level					
10.3	We were fully involved in committee activities in the initial stage.					
10.4	We are actively involved in committee activities in the operational stage.					-

		,	 	 	
10.5	We are actively participating in meetings.				

Part 11: This section asks questions regarding "Transparency and Responsibility" of CBO activities in your scheme.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
11.0	Transparency and Responsibility					
11.1	There is a transparency in decision making process.					
11.2	There is a transparency of all financial activities.					
11.3	We have faith on our water management committee.					

Part 12: This section asks questions regarding "power and commitments" of committee members in your scheme.

		Strongly Disagree	Disagree	No idea	Agree	Strongly Agree
12.0	Power and commitments University of Moratuwa,	Sri I	an	ĸa.		
12.1	No power conflicts among committee members and community.	sertai	10n	S		
12.2	Have legal arrangement to support issues					
12.3	There is a true leadership and not take uni-lateral decisions and irregular spending					
12.4	CBO leadership and office bearers are benefitted from the scheme and their personal commitment is very high.					

# Information about yourself (community profile)
