ACKNOWLEDGEMENTS

This dissertation would never have been possible without the invaluable support given by many, to whom I am indebted and sincerely acknowledge.

Dr. Ranjith Dayaratne, Senior Lecturer, Dept. of Architecture and course co-ordinator of the M.Sc Final year for the continuous guidance, incisive comments, patience and inspiration given to me and directing the many aspects of this study. I am extremely grateful for all his help and appreciate the time and efforts extended to me in carrying out this research.

Arch. Vidura Sri Nammuni, Mr. D.P. Chandrasekra, Dr. L.S.R. Perera, and Mr. P. Kokuleraj for their invaluable comments.

To a special friend - a senior colleague - Prassanna - for helping and encouraging me in many ways to complete this work - I need to say a special 'thank you'.

I am also greatly indebted to all my dear friends, mates Sonali, Darinie without whose assistance I would never have been in a position to complete this study.

Nilanthie for helping me to computerize this manuscript.

Mohan for assisting me with the diagrams and sketches.

Finally to my parents, for their relentless support which was always forthcoming, and for tolerating all the inconveniences caused.
