

Bibliography

- Brenda & Vale R. **Green Architecture**, Great Britain : Thames and Hudson Ltd. (1991).
- Egan, M.D **Concepts in Architectural Lighting**, United states of America: Mc Graw- Hill book company (1983).
- Kallblad, K **Comfort- A Computer Programme For Thermal Comfort Simulation**, Department of Building science, Lund institute of technology, University of Lund (1996).
- Roaf, S & Hancock, M **Energy Efficient Buildings**, London: Blackwell Scientific Publications (1992).
- Roger T.S **Thermal Design for Buildings**, New York, Jhon Wiley & Sons (1985)
- Stein, R.G **Architecture and Energy**, New York Anchor Press (1977).
- The Ove Arup Partnership **Building Design For Energy Economy**, Grate Britain: Pitman Press (1980).
- Van Straaten, J.F **Thermal Performance of Building**, New York, Elsevier Publishing Company, (1967)
- Watson, D **Energy Conservation Through Building Design**, Great Britain: ACSA Publications (1977).
- Watson, D & Labs, K **Climatic Building Design**, United states of America: Mc Graw- Hill book company (1983).
- Watson, D & Labs, K **Climatic Design, Energy Efficient Building Principles and Practices**, United states of America: Mc Graw- Hill book,company (1983).
