*How do two waves
join each other?
They merge, they dissolve,
and in their merging is their death .
They die individually,
to become one in each other,
Then , can you ever separate
them again??*

Secrets of love ,Vikas Malkani,1998.

INTRODUCTION	I
CHAPTER ONE	01
<u>Importance of inside and outside spaces merging.</u>	01
1.1-The architectural space-Its beginning.	01
1.1.1- The Inside space.	01
1.1.2- The Inside place.	01
1.1.3- The Architectural place- Its beginning ..	02
1.2- Concept of house as a Universe	04
1.2.1- Inside Space in a house	05
1.2.2- Outside Space in a house.	07
1.3-Evolution of inside - outside relationship.	08
1.3.1- Early period rural houses.	08
1.3.2- Early period Urban House.	09
1.3.3- Spatial unit in the contemporary urban houses	10
1.4- Importance of merging in inside and outside Contemporary domestic Urban architecture.	12
CHAPTER TWO	
<u>Achieving a Unified image</u>	14
2.0- Achieving a unified image	14
2.1- Unified Image (Unity): Ultimate gale of the unification	15
2.2- Principle of achieving unification.	17

2.2.1- The principle of pragnanz	17
2.2.2- The principle of the similarity and proximity	18
2.2.3- The principle of figure and ground.	19
2.2.4- Continuity scale and proportion balance and rhythm	21
2.2.4.1- Continuity	21
2.2.4.2- Scale and proportion,	22
2.2.4.3- Balance	23
2.2.4.4- Rhythm	25

CHAPTER THREE

<u>The strategies of interpenetration that merges inside and outside polarities to achieve an unified image.</u>	27
3.1- Definition of interpenetration.	27
3.2- Definition of spatial interpenetration	28
3.3-The strategies of spatial interpenetration	29
3.3.1- Opening with in plans	30
3.3.1.1- Vertical plane	30
3.3.1.2- Horizontal plane	36
3.3.2- Opening between planes	38
3.3.2.1- Vertical Horizontal	38
3.3.2.2- Horizontal / Horizontal	39
3.3.3- Others without openings	41
3.4- Application of box destruction methods in architectural spaces.	41
3.4.1- Architectural Spaces are merge inside and outside for achieving unified image.	41
3.4.1.1- Courtyards.	44
3.4.1.2- Verandahs.	44
3.4.1.3- Terraces.	46
3.4.1.4- Balconies.	47
3.5- Examples of the contemporary foreign architects who had used the strategy of interpenetration to merge inside and outside polarities to achieve an unified image.	49
3.5.1. Falling water: Architect Frank Lloyd Wright.	49
3.5.2. Barragan's house and studio: Architect Barragan	51
3.5.3. Bacilona Pavilion: Architect Miese Vander Rhoë.	54

CHAPTER FOUR

<u>4.0-Case studies</u>	56
4.1.- Case study one	57
4.2- Case study two	60
4.3- Case study three	65
4.4- Case study four	69
4.5- Summery	76
CONCLUSION	78
BIBLIOGRAPHY	81

LIST OF ILLUSTRATIONS

Figure No

- Plate (1) man's body is the first inside space
Plate(2) No inside space without man
Plate(3) There is man ,begging a inside space
Plate(4)hierarchy of the moving inside outside zone in architecture
Plate(5) Man's first inside space and protection space is mother's womb
Plate(6) without inside no security.
Plate(7)with in the inside there is security
Plate(8)inside space for eating as personal space
Plate(9)inside spaces create feeling of lock.
Plate(i0)Man sleep and relax from nature. can't separate .
Plate(11)Man beg the outside or nature.
Plate(12)first permanent structure with only one opening
Plate (13) house is in the concrete garden
Plate (14) House is like a prison
Plate (15) Summary of the inside outside evolution of house
Plate (16) multiplicity unity
Plate (17) unity multiplicity
Plate(18)broken circle and broken square
Plate()Multiplicity (scattered things)
Plate(19)
Plate(20)
Plate (25) figure ground position .
Plate(22)process to contras to unified in figure ground.
Plate(27) continuity by series of inside and outside by elements
Plate(28) continuity of forms
Plate(29) universal man for proportion
Plate(30) architectural proportion of building
Plate(31) symmetrically balance of architecture
Plate (32) a dancer move rhythmically
Plate (33) rhythm in architecture
Plate(34)interpenetration zone of 2-d form
Plate (35)Spatial interpenetration of two between tow spaces spaces
Plate (36)difference aspect of gray area
Plate(37)Method of box destruction]]

Plate(65)overlapping slab merge inner outer.

Plate(66)overlapping slabs in falling water

Plate(67) by perspective and section of extended horizontal plane.

Plate(68) less interpenetration not merge inner and outer

Plate (69)Higher interpenetration zone

Plate(70)Gefry Bawa used extended slabs in Kandalama for merge inner outer

Plate (71) Inner glaze floor texture match outside pond

Plate (72)continue light beams merge inner outer

Plate(73)texture of paving continue inner outer

Plate(74) court yard merge inside and outside horizontally and vertically section and perspective

Plate(75) less interpenetration:

Plate (76)higher interpenetration

Plate(77) higher degree of inter penetration slab though the extended slab

Plate (78)higher degree roof inter penetration of elevated roof

Plate (79) series of courts, spaces continue by elements or texture at Triron

Plate(80)In courts trees and lights move far away.

Plate(81)Verandahs with larger opening space with screen wall or extended slab

Plate (82) Less interpenetration of verandahs

Plate (83)higher degree of interpenetration.

Plate(84) larger front verandah:

Plate(85) larger rear verandah

Plate (86) People talk with friends in terraces in Asia

Plate(87)Terraces link inner and outer through the horizontally and vertically

Plate (88) continuing paving terraces enhance the interpenetration zone

Plate(89) terraces are extension of horizontal plane.

Plate (90)

Plate (91)

Plate (92)no interpenetration zone.

Plate (93) destruction of box

Plate (94)overlapping

Plate (95)

Plate (96) larger opening of curtain compress of the

Plate (07)

Plate (08) sky lights and larger glaze curtain wall feel not separation of inner outer

Plate (09) balance the figure ground by over lapping

Plate ()

Plate (10) alhambrapalace

Plate (101) larger opening view of inside

Plate (102) continue paving to the in & out side view of above opening

Plate (103) extended slab connected inner outer

Plate (104) larger openings and space between free standing wall

Plate () Extended slab are coming from outer of box

Plate (105) open court . continuing texture of wall and column

Plate () open court . continuing texture of wall and larger curtain wall

Plate (106) unified image by figure ground composition in plan

Plate (107) box destruction vertically and horizontally

Plate (108) larger opening open to the

Plate (109) front larger openings with steel grill

Plate (110) larger openings link inner and outer

Plate (111) Double height volume enhance the merging inner and outer

Plate (112) rear court larger opening

Plate (113) larger opening in the rear court

Plate (114) Location plan

Plate (115) box destruct vertically and horizontally

Plate (117) pergolas in rear court

Plate (118) open to sky light in bathroom.

Plate (119) open sky pergolas link inner outer vertically

Plate (120) Strategies of screen wall and larger opening forms the colonnaded verandah

Plate () interpenetration zone explained interpenetration section

Plate (123) continuing colure of the columns and similar form of the

Plate (124) center court heart of the house.

Plate (127) larger opening for merging inner outer

Plate (128) larger fully opening merge inner outer

Plate (129) larger opening sin kitchen

Plate (130) larger several openings

Plate (131) Several larger opening use for merging

Plate (131) create proximity of light beam

Plate()Higher degree of opening.

Plate()Difference of the doors

Plate()

Plate()enhance the interpenetration by continuing series of elements and forms inner to outer.

Plate (13) pergolas given shading to the inner courts

Plate (13) colonnaded zone and curtain wall enhance the interpenetration zone enhance

Plate (14) Ground floor plan

Plate (15) 2nd floor plan

Plate (16) Upper floor plan

Plate(17) location plan

Plate (18) front side

Plate(19) box destruction and links

Plate (20) rear court

Plate (14)

Plate(14) resist balconies

Plate(14) pergolas in the rear court

University of Moratuwa, Sri Lanka
Electronic Theses & Dissertations
www.lib.mrt.ac.lk

Plate (14) Pergolas link vertically

Plate(14) larger openings in rear court with glaze curtain wall.

Plate(14)

Plate (14) fully larger opening with open pond

Plate(14) lower floor section.

Plate (14) lower floor plan

Plate (15) section of 2nd floor

Plate(15) Section of 3rd floor.

Plate (15) 2nd floor plan

Plate (15) 3rd floor plan

Plate(15) tribal height open court

Plate (15) section of open void

Plate(15) Even merging inner outer falling water and Anjalendran's hose has such kind of enclosure

Plate(16) Suchith and Baragan house merge inner and outer

Plate (16) Varuna and Mies Vanderho Vandherho mer

ACKNOWLEDGMENTS

Let me record here my heart felt gratitude to each and every one mentioned below for their to make this dissertation success.

To professor Nimal De Silva, who was generous in making constructive comment and suggestions. To architect. Vidura Sri Namuni and Dr. Manawadu, who gave me a freedom to pursue a different subject area with his comments as guideline. To Architect, Raveen Gunarathna, heartlessly thanks for his inspiration, encouragement, criticisms and valuable advice.

To Architect, Arosh Gamage, Architect Crise De Serame and Gamini Verasinghe for their encouragements and comments. To Architect Varuna De Silva, Suchith Mohotthi, Anjalendran, who gave me their assistance about some case studies in dissertation.

To Mrs. Sumanathilaka for their valuable assistance.

To special thanks for. Roshani Akka, and Aunt to their kind helps given. To thank Upuli and aunt and family of Kumarasighe, to given kindly help.

And another special thanks to Sithumina, Indika and Sujiwa, Dammika, Nalinda and for valuable assistant.

To U. Wijerathne, for his patient help encouragement given sharing of hard work and of course finding such information, relevant book. To my Friends, Kanchana, Nadisha, Niluka, Asanthi, and Maduka.

At last but not least I am heartily thankful to my Parents and specially my sister for kindly making for assistance. Finally to nature the source of inspired in writing this.
